

Introduction:

The SC1000 touchscreen display plays an important role within your Alfa Laval PureSOx system. During normal operation, it displays the measured values from the compliance water sensors. It also provides the user an interface to navigate diagnostics, sensor setup and testing/maintenance.

Why choose refurbished?

Opting for a refurbished display module is a smart, cost-effective, and sustainable choice. It reduces operational costs without compromising performance. By reusing quality components, we minimize waste and resource use—supporting Alfa Laval’s sustainability goals while helping you maintain compliance and reliability.

Refurbishment Service

The faulty SC1000 display module must first be send to the Alfa Laval warehouse. Once received, a refurbished unit will be shipped back. Installation can be carried out by the crew or an Alfa Laval service engineer. See pricelist for Heat and Gas Systems Service Engineer.

New SC1000 display

A new display can be shipped within 1 working day with a warranty of 1 year.

Refurbishment at Alfa Laval warehouse

Once the faulty SC1000 display has been received at Alfa Laval warehouse, it will be repaired within 2 working days of receipt, then shipped back with a warranty of 1 year. If repair is not possible, we will dispatch a refurbished display from our pool of stock.

Please contact your Alfa Laval sales company for the pricing details of the below options:

Option	Description
1.	New SC1000 display GS1002715X
2.	Refurbishment at Alfa Laval warehouse 1002715-SV

Return requirement

To ensure continued availability, the module must be returned at the first port of call or at the earliest convenient opportunity. The module must be sent to our warehouse before it can be refurbished. Return instructions will be provided upon order confirmation.

See full RMA instructions and return label for more information.

Disclaimer:

Alfa Laval shall have no responsibility for deterioration or damage caused to the equipment by ordinary wear and tear, unintended use, misuse, abuse or improper storage, improper installation, improper maintenance, improper operation and/or improper repairs by the buyer or by third parties.
